Data Sheet

Optical Lane Mounting Platform OLMP

Orion Entrance Control's Optical Lane Mounting Platforms allow pedestals to be mounted and wired without having to be drilled into the floor.

The Mounting Platform is ordered per lane and can be bolted together for more multiple lanes in an interlocking fashion.

The flooring is non-skid rubber.

The colors presented herein are illustrative only. Orion Entrance Control, Inc., reserves the right to change product specifications without prior notice. Not responsible for typographical errors.
